

I already said what I needed to say about this album. This is for the real 1's. The ones that wanna dig deeper. Most of what I threw away or edited out. I mostly didn't edit anything on this album, but I did leave some things off. I'm giving it to u babes in this USB. it's a slightly altered version of AMHAC. Think of it like as a directors cut. Enjoy it do what u want with it. I've felt thought everything I need to feel about this album. This is my final update for now. Love u! and I genuinely hope you enjoy this.
